Additional Info

Languages:

Greek (Native)

English (Advanced)

Currently, mainly focusing on the front-end word technologies and especially developing applications using the Angular Framework. As an experienced Angular developer, I specialize in crafting robust and efficient web applications. I have a strong foundation in Angular's core concepts and I am skilful at applying domain-driven design principles to create modular and maintainable code.

Outside of my professional work, I'm passionate about contributing to the open-source community. I actively participate in various projects, focusing on bug fixes, feature enhancements, and improving documentation.

Experience

Senior Front-End Engineer

August 2023 - present

EPG Financial Services Ltd

- Developing large scale backoffice application using Angular.
- Migrating and refactoring parts of the application adhering to latest framework's reactivity optimizations and up to date state management solutions.
- Proactively participating in product discovery meetings with various stakeholders.
- Conducting front-end technical interviews to potential newcomers.
- Training, mentoring and leading junior and new team members.
- Following all scrum meetings ceremony.

Full Stack Software Web Engineer

January 2018 - July 2023

NLG – Next Level Globalization – Welocalize, Thessaloniki, Greece

- Designing, developing, testing and debugging large scale web services using AngularJs, Angular and C#.
- Migrating and refactoring legacy web services and applications using design patterns and up to date state management solutions like NgRx.
- Standalone apps maintenance and features adding based on client needs.
- Shifting from imperative programming solutions to declarative using functional programming tools like RxJs.
- Strong collaboration with team members and internal management teams to deliver solutions keeping priorities and deadlines consistent.
- Trained, mentored and lead junior developers.
- Task assignment and developing for large scale web applications using Vue and NodeJs.
- Agile methodology followed and implemented using scrum framework.

Software Web Developer – Android
Developer Real Value – Thessaloniki, Greece

October – November 2017

- Designing and developing medium scale android applications for external use.
- Small scale javascript web solutions for internal use.

Software Web Developer - Internship

August 2015 – October 2017

Arx.net – Thessaloniki, Greece

- Designing and developing medium scale websites using html, javascript, css.
- Developing large scale web services using AngularJs and Perl.
- Problem solving with various stakeholders.

Skills

- **Problem Solving**
- **Time Management**
- **Leadership**
- **Critical Thinking**
- **Teamwork**
- **Easily Adaptable**
- **Creative Decision Making**

Programming Languages and Technologies

Frameworks

- Angular
- Analog
- AngularJs
- VueJs (Intermediate)
- Asp.Net MVC (Intermediate)

Programming Languages

- Typescript
- Javascript
- Python
- C#
- MySql
- Java (Intermediate)

Database Solutions

- Supabase
- Drizzle
- MongoDB
- PostgreSql

Styling

- TailwindCSS
- Html5
- Css
- Scss
- Bootstrap
- Taiga UI
- Angular Material

Testing

- Jest
- Jasmine
- Karma
- Angular Testing Library
- Storybook

State Management Solutions

- NgRx
- SignalStore
- Vuex (Intermediate)

Reactive Extensions	Version Control	Development Tooling	API Protocols
■ RxJS	■ Git	■ Nx	■ tRPC
■ RxJava (Intermediate)	■ Svn		

Portfolio

- **NxSuite** (Collection of applications and libraries built inside an Nx Monorepository adhering to DDD architecture principles using Angular Framework. In addition, this repo contains a reusable component library on top of TaigaUI that can be shared across all applications.)
- **Angular v18 Zone Less Change Detection** (A sample app showcasing how change detection is performed in a zone less Angular v18 environment.)
- **Angular v18 ZoneJs Change Detection** (A sample app showcasing how change detection is performed in a zoneJs Angular v18 environment.)
- **Angular Challenges** (Open Source contributor in Angular Challenges project; a repository containing over 55 challenges throughout Angular ecosystem related technologies.)
- **Spartan UI** (Open Source contributor in Spartan UI. Spartan is an Angular full-stack development environment providing headless and fully accessible UI components.)
- **Angular Space** (Participating in Open Source missions of Angular Space Hub. A special hub for learning and growing as an Angular Developer.)

Education

BA Information Technology

2008 – 2016

ATEI Thessaloniki, Thessaloniki – Greece

Caltech Post Graduate Program In AI And Machine Learning

July 2023 – July 2024

Caltech (Center for Technology & Management Education), Online

Certifications

- Vue - The Complete Guide (incl. Router & Composition API) Additional Information, Udemy
- Angular Testing Masterclass (Angular 15), Udemy
- NgRx (with NgRx Data) - The Complete Guide (Angular 15), Udemy
- Reactive Angular Course (with RxJs, Angular 15), Udemy
- SQL TransactionALWays, Institute of Life-Long Education (ILLE) and DBTechNet team
- NG-DE 2019 Angular Conference, Berlin
- Master Software Dev: Leadership, Decision-Making Skills 2023, Udemy
- Conscious Angular Testing, Decoded Frontend
- Senior Angular Developer(Level 3) Certification Exam, Certificates.dev
